## Vanik Seeks CIA Spending Disclosures

By Press Washington Bureau

WASHINGTON — Legislation to shed more light on activities of the Central Intelligence Agency will be introduced by Cong. Charles A. Vanik (D-Cleveland).

Vanik said he will ask Congress to make CIA spending public in the federal budget, clarify its operations and create a congressional committee to oversee the spy agency.

Deploring disclosures of CIA's use of funds to obtain intelligence through student, labor and other groups, Vanik said "more responsible" control is needed.

Scattering of CIA appropriations throughout the budget to obscure its spending "constitutes a budgetary fraud," Vanik declared.
